
Night-time view of new Administration Building At UCC. All building Photos in this section by Alan Buckingham, N-R photographer.

Dedication Will Mark Finish Of UCC Phase I

The unusual architectural design of the buildings at Umpqua Community College has attracted considerable comment.

The design suggests the merging of an architectural form into campus surroundings, with no attempt being made to imitate any other contemporary style. Thus, the structures are a blending of rock and wood to create structures that identify

education classrooms at the north end and a student lounge and book store at the south end. Also in this building are the usual service facilities and book lockers.

The Classroom Building contains eight general purpose rooms. These rooms are "outside-loaded" which eliminates inter-

serve the campus office needs to 1973, having four small offices in the main section together with general work areas. The executive areas are in the rear portion and include a carpeted board room, president's office and office for the president's secretary.

Official College Emblem

also being attractive to look at and pleasant to work in.

The Snowbird rock which is prominent in the stone work of the buildings comes from a quarry about 22 miles up Little River.

Structures Complete

The four buildings involved in the first phase of construction are now complete and have been occupied since the beginning of the fall term. The four structures are the Administration Building, Library, Classroom facility and Science Building.

The Library is the largest of the four structures. It houses a carpeted general reading room, large stack area, audio visual storage, preview rooms, conference rooms, work and periodical storage areas, as well as the faculty lounge. Each end of the building has a non-bearing wall which creates two temporary business

tion, faculty members are provided with office areas adjacent to the classroom unit, making possible full utilization of classrooms and, at the same time, providing each instructor with space to counsel students.

Two Per Office

In most instances, two faculty members share an office. The unit contains the usual service facilities adjoining the main structure.

The Science Building has a lecture hall seating 61 students, a 30-unit classroom and four laboratories. Each lab can be reached from an interior preparation and storage area. The biology, chemistry, physics and physical science labs are now being fully equipped for all the science areas normally offered by a two-year college.

The Administration Building is the smallest unit. It has been planned to

Program For Sunday

Dedication ceremonies and open house for the newly completed buildings comprising Phase I of Umpqua Community College development get under way at 2 p.m. Sunday with U.S. Rep. John Dellenback as special speaker.

In connection with the open house, tours will be conducted giving the public opportunity to inspect all of the campus facilities.

Program will include the following: Master of ceremonies, Dr. Clifford Babbitt, UCC College Board chairman; invocation, the Rev. Sam Kleinsasser; introduction of guests, Harry Jacoby, college president; greetings from the Associated Student Body, Larry Edmonson, ASB president.

The program continues with greetings from the college staff, Mrs. Eleanor Moody, librarian; dedicatory address, Rep. Dellenback, and benediction, Rev. Kleinsasser.

Library is largest of four structures in first phase

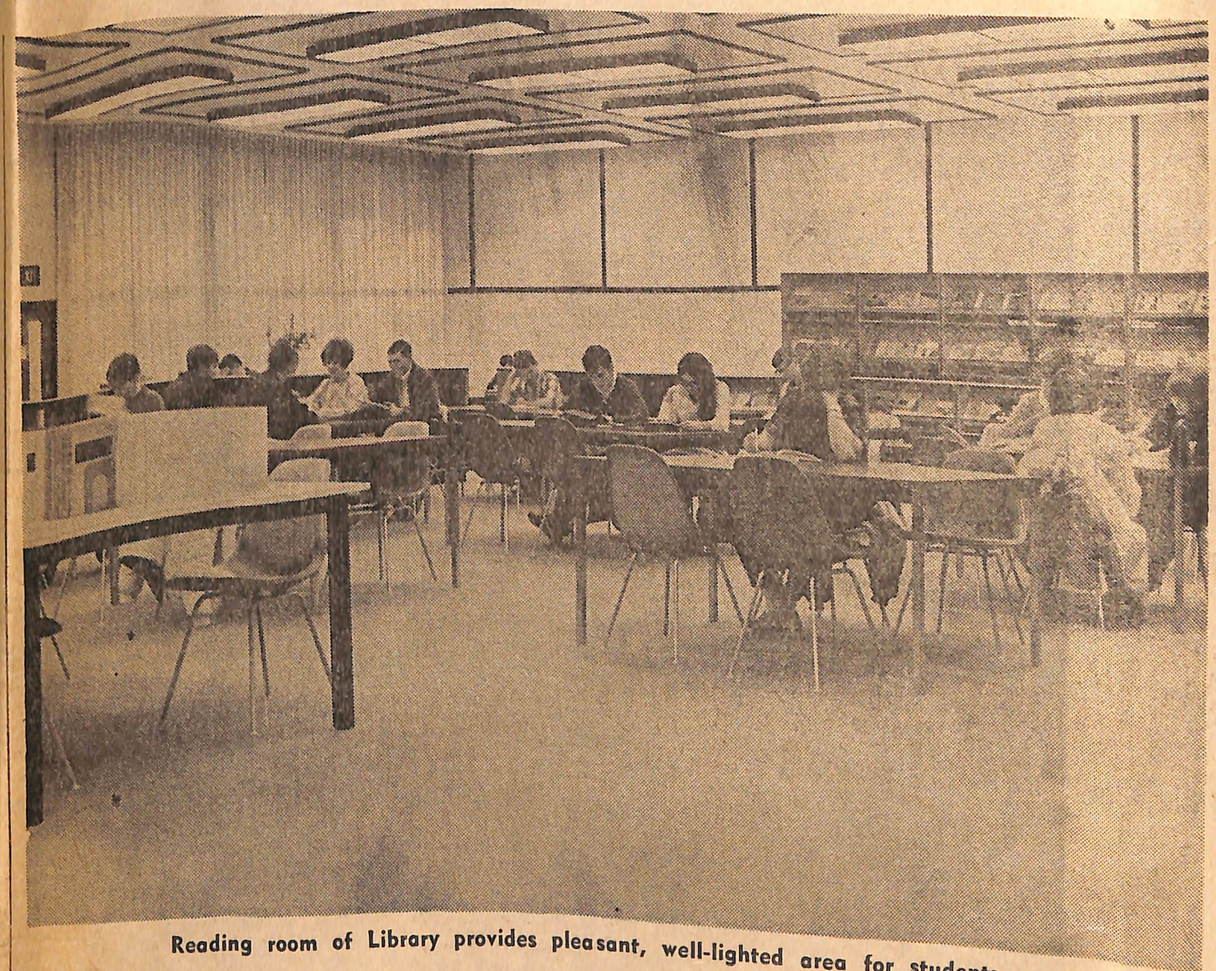
The News-Review

Planning Starts For Next Phase Of College Development

UCC BOARD OF DIRECTORS — These seven men shouldered the responsibility of bringing Umpqua Community College to its present stage of development. Left to right, they are Dr. Clifford Babbitt, chairman; Kenneth Knechtel, William Markham, Charles Dowd, Wayne Crooch, Fred Booth and Ray Coffenberry. The board has devoted many hours to the myriad details involved in planning and developing the first phase of college construction . . . and the task is only partly completed. The board and administration are already at work planning the second phase of campus development. (Chris Studio Photo)



Reading room of Library provides pleasant, well-lighted area for students.

Phase II Will Provide Vo-Tech Facilities

Planning for the second phase of construction at Umpqua Community College is in high gear, according to college officials.

Two units are involved in Phase II. The larger structure will house a shop area for auto mechanics, light engines and heavy equipment programs. In addition, laboratory space is planned for forestry and engineering programs, and a general utility shop and small warehouse section are included.

The second building will contain several general purpose classrooms, a lecture hall with capacity for seating 100, a business education section with classrooms and lab space, a drafting room and a laboratory area for the practical nurse program.

Financing of Phase II is a partnership relationship wherein the local college district and state of Oregon participate. Voters of the district in May of 1965 approved a five-year serial levy providing $230,000 per year for college construction.

It is estimated that $575,000 will be left to use in Phase II after all bills are paid for Phase I. The state of Oregon has earmarked for UCC the sum of $442,000 in the 1967-69 biennium. The college board of directors will be making final building decisi-

Equivalency Up

Fall Enrollment Shows Increase

A 24 per cent increase in enrollment is reported for Umpqua Community College as the facility enters its fourth year of operation.

The final fall term enrollment figures also show an 18 per cent increase in full-time student equivalency.

The total enrollment is 1,178 as compared with 947 last year. In the three separate divisions of the college, 455 are enrolled in Lower Division transfer courses, 351 in vocational-technical courses and 372 in adult evening education.

The college's full - time equivalency is 570, compared with 483 in 1966. This figure is determined by dividing total student credit and clock hours by the number equivalent of a full class load for the term.

Included in the enrollment are 370 full-time students and 808 part-time students.

Freshmen number 562, sophomores 130 and special students 486.

Education Districts Govern Most Community Colleges

Oregon has 11 community colleges, nine of which are administered by area education district boards.

The two exceptions are Portland Community College and Oregon at Coos Bay, Treasure Valley at Ontario and Umpqua at Roseburg.

It is estimated that $575,000 will be left to use in Phase II after all bills are paid for Phase I. The state of Oregon has earmarked for UCC the sum of $442,000 in the 1967-69 biennium. The college board of directors will be making final building decisions in the very near future as to size and projected costs.

Credit Transferable To Four-Year Schools

Credits earned in the lower division collegiate program at Umpqua Community College are fully transferable toward a baccalaureate degree in four-year state institutions.

The lower division college curriculum offers classes in the broad areas of fine arts, business, foreign languages, humanities, sciences, social sciences and physical education.

This curriculum is approved by the State Department of Education and the State System of Higher Education.

of operation.

The final fall term enrollment figures also show an 18 per cent increase in full-time student equivalency.

The total enrollment is 1,178 as compared with 947 last year. End of Summer Term	Aug. 9

Community College Law Adopted In '61

Oregon's existing community college law was adopted in 1961.

By 1963, nine institutions were operating under community college statutes. This number grew to 10 by 1964 and 11 by the fall of 1966.

The increased interest of local areas in these two-year institutions during the last three years is due in part to increasing levels of support, according to state education officials.

College Has Modern Facilities

Three-Sport Athletic Program Begins At UCC

A three-sport athletic program is scheduled at UCC this year as the college moves gingerly into the field of intercollegiate competition.

The cross - country and basketball teams have already started activity, while the track team is looking toward spring for the start of competition, which will be on a limited basis.

The basketball squad consists of Jim Coon, Gary Heeter, Don Hobbs, Steve Guthrie, Jim Myers and Curt Wheeler, all Roseburg; Steve Buell, Winston; Jim Erwin, Riddle; and Dan Tofell, Malin. The club will compete in the Roseburg YMCA League and some games will be played with neighboring community colleges, including Southwestern Oregon, Mt. Hood, Clatsop and Salem Technical colleges.

Ralph (Cy) Perkins is athletic coordinator.

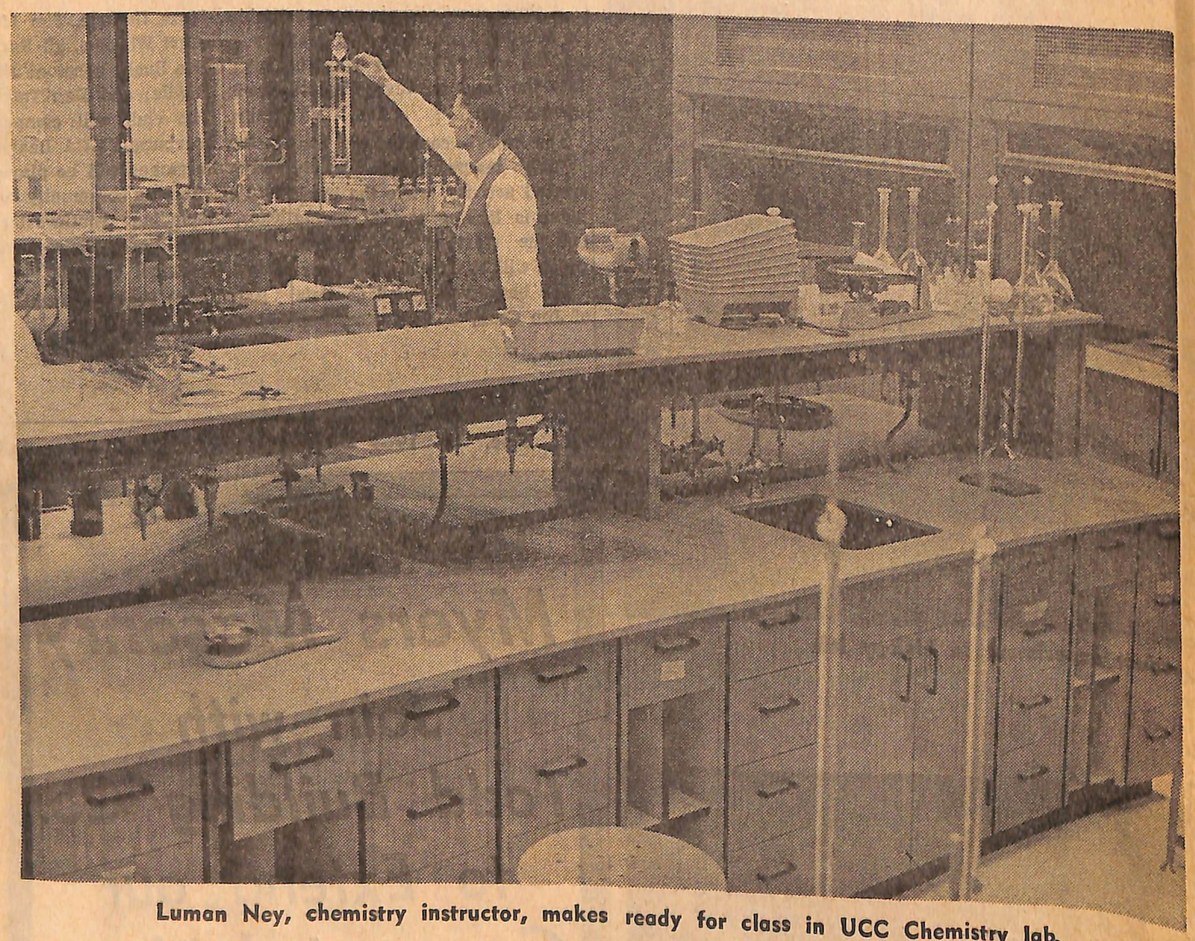
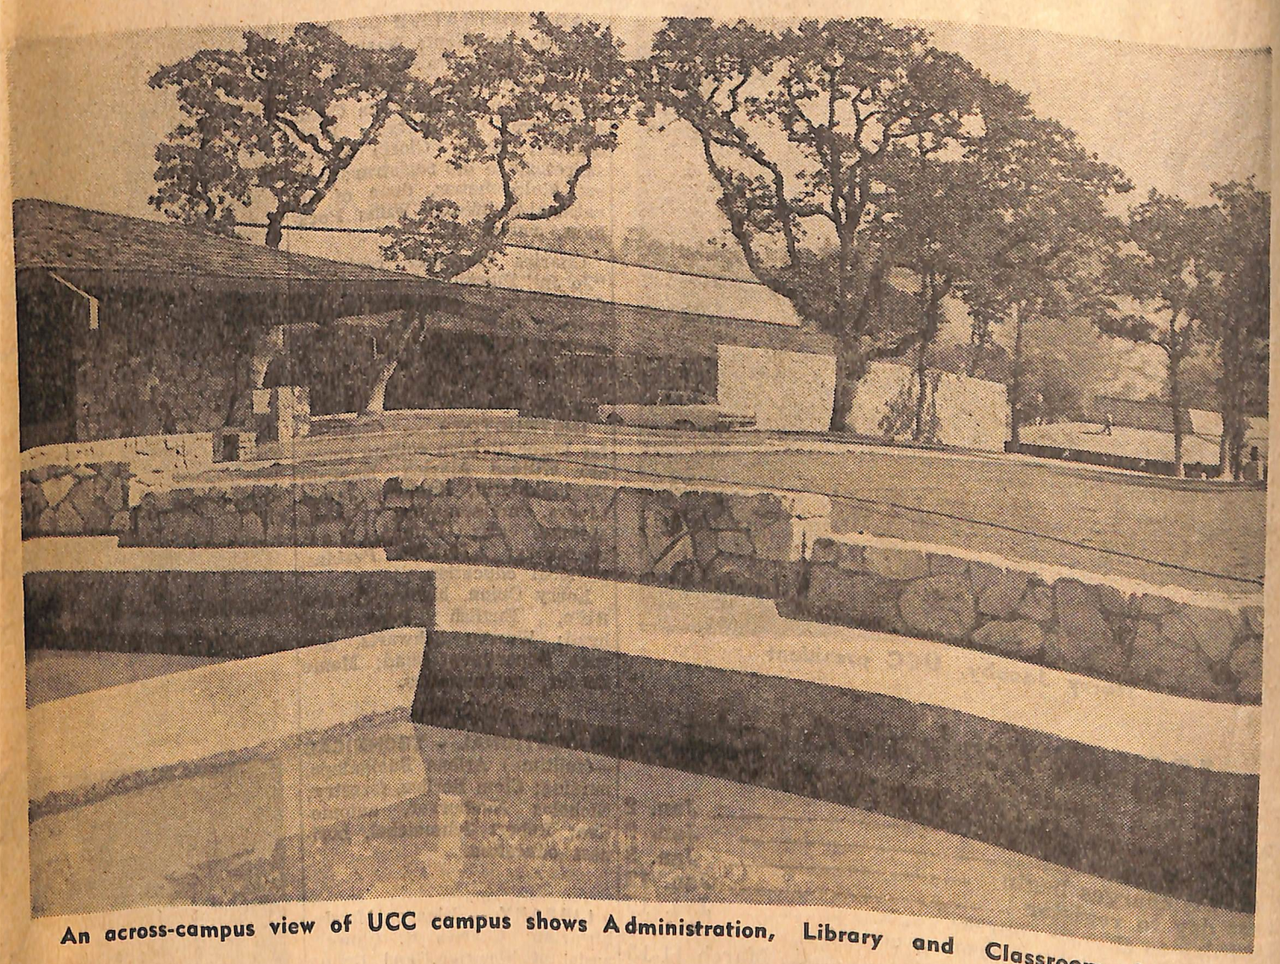
College Offers Wide Range Of Educational Opportunity



Luman Ney, chemistry instructor, makes ready for class in UCC Chemistry lab.



An across-campus view of UCC campus shows Administration, Library and Classroom buildings.

Why a community college?

The rapid growth of the community college program is a tribute to men of vision who realized that countless numbers of high school students would be denied higher educational opportunities if something weren't done at the local level.

A community college — such as UCC— opens the campus door to many students who otherwise might not be able to continue their education.

Take a look at the higher education system today.

Entry to four-year colleges has become increasingly difficult, due to the tremendous influx of students. Community colleges are easing the load for the larger instutitions and provide two years of advanced schooling at considerably less cost and more convenience. Moreover, parents see the community college as the appropriate educational step for sons and daughters who are still unsure about their career goals.

Skills Developed

Of equal importance, educators point out, is the vocational - technical program which serves students who are interested in learning special skills rather than acquiring a formal, academic education. The community college makes another substantial contribution by making it possible for adults of the community to broaden their knowledge on a specific subject or skill, through the adult education program.

era, a challenge that has received full-scale support from the citizens of Douglas County, as evidenced by the development of Umpqua Community College.

UCC was established by a vote of the people of Central Douglas County on March 30, 1964. At that same time, the voters of the Central Douglas County Area Education District selected seven board members. The charter board members were William Markham, Kenneth Knechtel, Wayne Crooch, Dr. Clifford Babbitt, George Marsh, Charles Dowd and Fred Booth.

One Board Change

The only change in the board's membership since that first election is that Ray C. Coffenberry now serves on the board and Marsh is off.

The first classes were held in facilities rented at Roseburg High School on a twilight and night program basis during the 1964-65 college year. During the first three terms, enrollment totaled more than 500 students each term in the three division programs — lower division college, vo-tech and adult education.

The search for a college campus was another interesting chapter in the college's beginning. The board of directors and administrative staff studied over 22 college site locations during an intensive six-month survey program.

In February of 1965 the board accepted

approved a five-year serial levy of $230,000 a year, which will raise a total of $1,150,000 to finance the district's share of building and construction costs for the first two phases of campus development.

Phase II Next

Phase II, which will add two buildings necessary for the conduct of an effective vocational-technical program, is expected to be completed in 1969. College officials have pointed out that the first two phases will accommodate the equivalent of 1,000 full-time students.

In addition to the Winchester campus, the college will continue to utilize rented facilities at 1410 SE Stephens for the automotive program; classroom and clinical laboratory at Douglas Community Hospital for the practical nursing program; and classrooms, shops and laboratories at Roseburg High School.

These temporary quarters will be used to house an expanded vocational offering and for other classes of the college.

The status of further construction at UCC beyond Phase II will depend on continued local voter support and allocation of building funds by the state Legislature. The long-range plan for the college calls for completion of Phase III in 1971 and Phase IV in 1973.

The third phase will involve the construction of additional science facilities,

It is warmly gratifying to have supplied building needs for construction of Umpqua Community College, where young and old may come and increase their capacity for community improvement through self-improvement.

opens the campus door to many students who otherwise might not be able to continue their education.

Take a look at the higher education system today.

14 New Faculty Members Join UCC Full-Time Staff

Umpqua Community College has added 14 new faculty members to its full-time staff.

Here's a brief sketch for each of the new staffers:

WILLIS PECKHAM — Head counselor. Peckham this year earned his master's degree in education from Oregon College of Education. He has seven years teaching experience, is married and has four children.

'JO JO' POWELL — Counselor. Mrs. Powell has a master of arts degree in guidance and counseling (earned in 1964) from the University of Oregon. She comes to UCC with three years experience as counselor in the Longview, Wash., schools. Mrs. Powell is married and has one child.

CHARLES CHURCH — Assistant librarian. Church has a bachelor of science degree (1960) plus 21 hours from Southern Oregon College. He has four years teaching experience and comes to UCC from Riddle High School.

CHARLES CHURCH

WILLARD ALDRICH — Recipient of a master's degree from Oregon College of Education in 1967, Aldrich has three years teaching experience. The new staffer comes to UCC from Monmouth. He is married and has three children.

MARIE MEINKE — She received a master of fine arts degree from the University of Oregon in 1967 and has taught for six years. Mrs. Meinke is a professional artist and has presented a number of one-man shows in San Francisco, New York and Montana.

LUMAN NEY — Ney has master's degree in bio-chemistry (1937) from the University of Oregon Medical School. He spent 16 years working for Stanford Research Institute as a biochemist and department chairman. Ney is married and has two children.

RALPH (CY) PERKINS—P.E. instructor, coordinator, Perkins received bachelor of science degree from Southern Oregon College in 1958 and has nine years teaching experience. He comes to UCC from Sutherlin High School, is married and has three children.

MONTE ZERGER — Math instructor. Zerger holds a master's degree from the University of Oregon (1959) and has been working as a graduate assistant. He comes to UCC from Eugene, is married and has one son.

WARREN SCHWARTZ — Science Department head. Schwartz received a master's degree from the University of Idaho in 1960. He has 10 years teaching experience and is a former instructor at Roseburg High School. He is married and has two children.

PAUL WALDO — Speech instructor. This new staffer has 10 years teaching experience, received a master's degree from the University of Michigan in 1964. He comes to UCC from Eugene, is married and has two daughters.

NORMAN SCHLESSER — History instructor. Holder of a master's degree from the University of Oregon — earned in 1967 — this new instructor's home town is Beaverton.

ELEANOR MOODY — Librarian. Mrs. Moody holds a master's degree in library science from the University of Southern California, received in 1957. A former librarian at Fremont Junior High School, she has 30 years teaching experience. Mrs. Moody is married and has two sons.

ROBERT SCHMEICHEL—Business education instructor. The new staffer has a bachelor of science degree from Minot State College at Minot, N. D., received in 1959. He has taught for eight years. Schmeichel comes to UCC from Merrill, Ore., is married and has two children.

CLEM BERLIER — Forestry instructor. Berlier received his bachelor of science degree in forestry at Oregon State University. The forestry teacher is a former forest engineer of Tygh Valley Lumber Co., Tygh Valley, Ore. He is married and has four children.

All-Electric and Modern as Tomorrow

Oregon's newest community college complex is heated and cooled entirely by modern, flameless elecricity.

A complete underground distribution system serves the entire college complex: administration building, library, class room building and science building.

Umpqua Community will provide education for the future. We're proud that the college selected the heating and cooling system of the future - electricity.

Attend the dedication and inspect the modern all-electric facilities.

PACIFIC POWER

Scholarships Help Students Attend UCC

Many Douglas County students are assured of an opportunity to pursue college studies as a result of the scholarship program available at UCC.

The college board of directors grants a total of 25 full-tuition scholarships to graduates of high schools located within the college district.

Students can make application by contacting their high school principal or counselor.

In addition, other scholarships are available from individuals and service organizations in communities of the county. Seniors interested are advised to contact their school counselors after Jan. 1 concerning procedure that their respective schools have established for applicants.

Scholarships from outside agencies include a full-tuition grant from the Roseburg Kiwanis Club, a tuition scholarship to an incoming freshman by the Executive Club of Roseburg, along with others made available by various local services and fraternal organizations.

Students should contact the registrar for complete information.

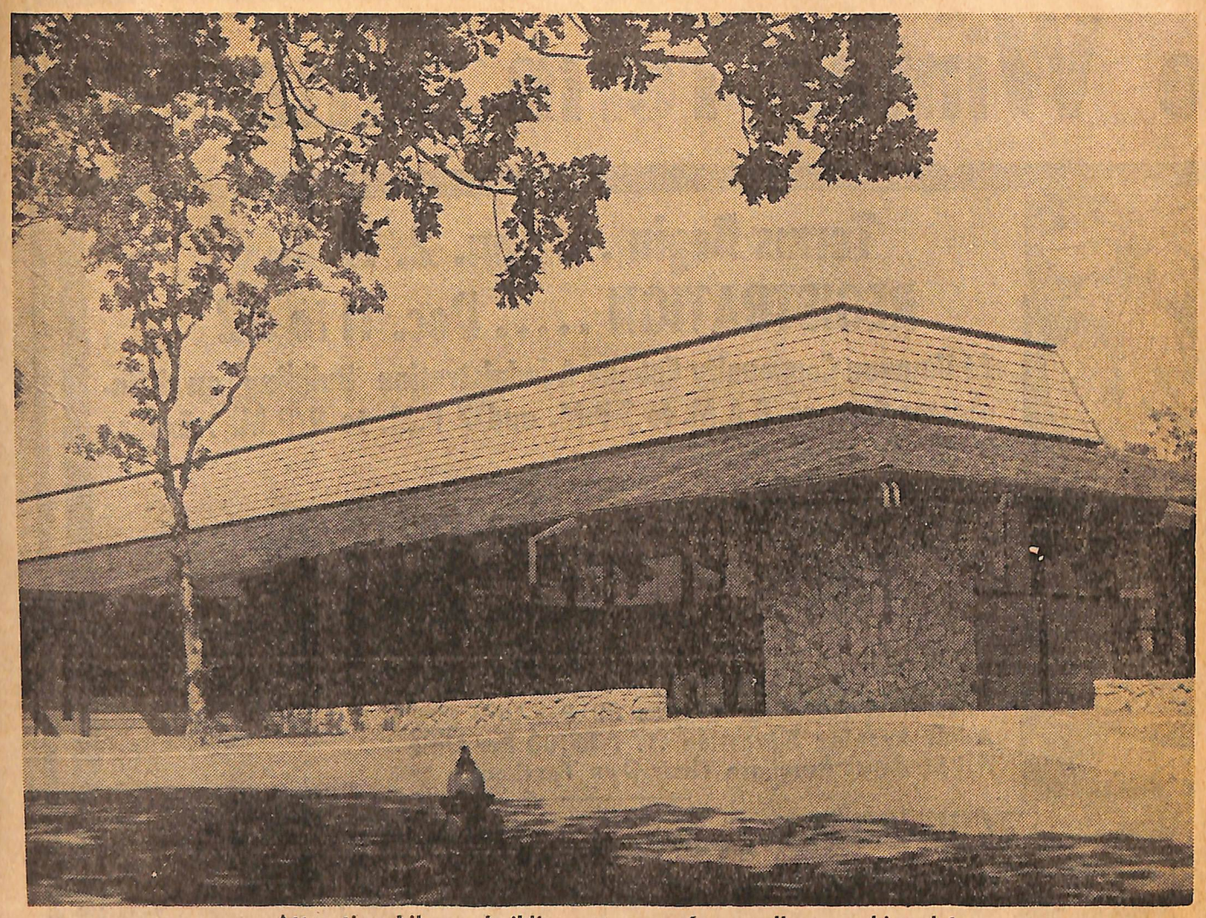
Other student financial aid:

VETERAN BENEFITS — College - transfer and vocational-technical courses are approved by the Veterans Administration, and a veteran who qualifies may receive a government stipend while attending college.

STUDENT EMPLOYMENT— The college gives assistance in locating off-campus work for students. Part-time employment is also available for on-campus work for those students who have unusual financial needs. On-campus jobs are available in the areas of clerical, custodial, library, student book store, teaching aide and miscellaneous duty.

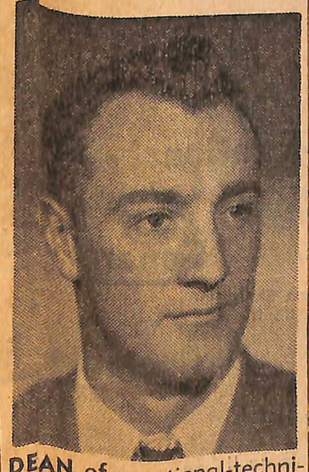
UNITED STUDENT AID LOAN — The college, in conjunction with the United Student Aid organization and local banking institutions, assists students with long-term loans for college expenses. The college also maintains a short-term loan program to serve students who have emergency needs.

NDEA LOANS — UCC has been approved for a grant of National Defense Education Act funds from which student loans may be made. In order to qualify, a student must have financial need and a satisfactory academic record.



Attractive Library building, as seen from college parking lot

RALPH SNYDER — Serves UCC as dean of instruction.

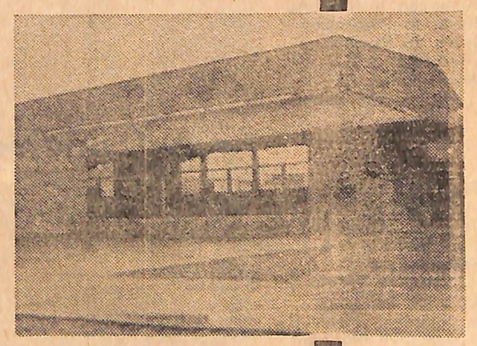


DEAN of vocational-technical education is Robert Moldenhauer.

A Dedication Message

to the Students of

Community College



Higher education is a necessary prerequisite to a sound financially-secure future.

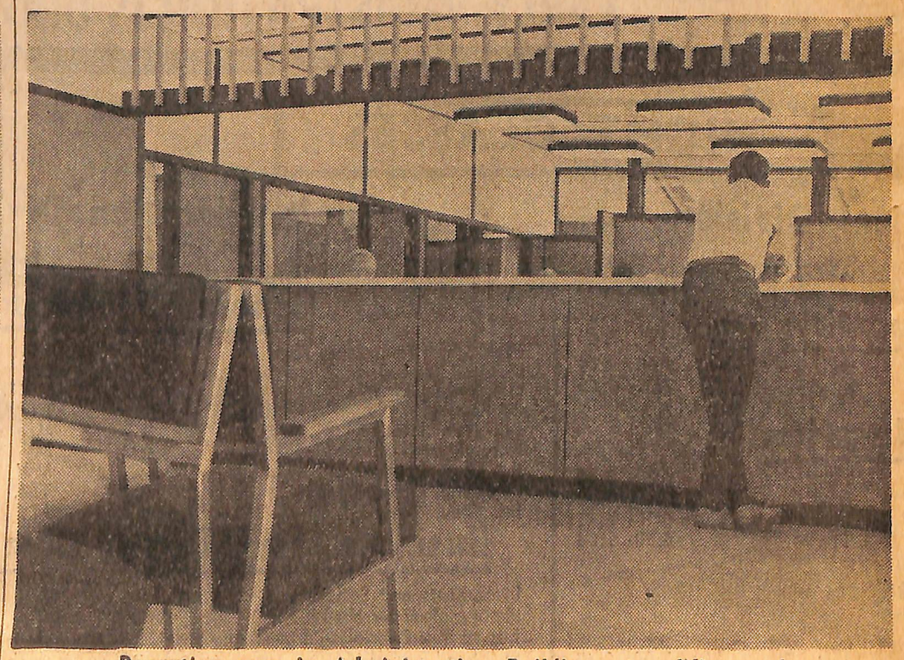
We Hope to See You At the Dedication and Open House Sunday Dec. 10 at 2 P.M.



Reception area in Administration Building exemplifies modern interior design of new buildings.

Students, Community Benefit From UCC Cultural Activities

Umpqua Community College plans to figure prominently in the cultural activity of Douglas County.

Its cultural offerings include art shows, band concerts and choral presentations.

Last Sunday's performance of "The Messiah" — in which the college chorus class participated — is an example of one cultural area that UCC will espouse.

has been selected to house the Haseltine Collection of Pacific Northwest Art this month.

This exhibition, including oil and water color paintings, drawings and prints, is on loan from the Museum of Art at the University of Oregon.

This exhibit will be of interest to the community as well as to UCC students, college officials believe.

dent Council has made tentative plans to make selected paperback books available to students. Students will have opportunity to choose from many of the classics and best sellers in art, history, religion and fiction.

Profits from sales will be used for student activities.

As time goes by, the college also proposes to sponsor cam-

UNUSUAL COVERED lamps add to campus charm. Tinted plastic shields diffuse the light to create a soft, yellow glow at nighttime.

Reception area in Administration Building exemplifies modern interior design of new buildings.

Students, Community Benefit From UCC Cultural Activities

Umpqua Community College plans to figure prominently in the cultural activity of Douglas County.

Its cultural offerings include art shows, band concerts and choral presentations.

Last Sunday's performance of "The Messiah" — in which the college chorus class participated — is an example of one cultural area that UCC will espouse.

Another is seen in the announcment that the college Library has been selected to house the Haseltine Collection of Pacific Northwest Art this month.

This exhibition, including oil and water color paintings, drawings and prints, is on loan from the Museum of Art at the University of Oregon.

This exhibit will be of interest to the community as well as to UCC students, college officials believe.

On the literary level comes an announcement that the Student Council has made tentative plans to make selected paperback books available to students. Students will have opportunity to choose from many of the classics and best sellers in art, history, religion and fiction.

Profits from sales will be used for student activities.

As time goes by, the college also proposes to sponsor campus and community appearances of nationally - prominent speakers.

Edmonson President Of Council

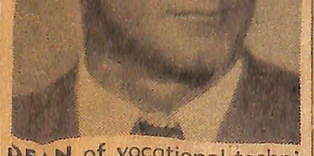
Larry Edmonson of Elkton is president of the UCC Student Council.

He is the second student to serve in this post since the council was given official sanction by a vote of college students in the spring of 1966. The first student in this office was Ronald Preston of Roseburg.

Other 1967-68 officers are vice president, Carol Toi, Roseburg; business manager, Glen Nielsen, Winston; and public relations manager, Larry Scheleen, Roseburg. Nancy Stark of Roseburg is acting secretary.

The council plans and presents various programs of activities throughout the school year. In addition, the council acts as a consulting group to the college administration and has in the past involved itself in community activities.

First student body activity of the year was a dance on Oct. 27.



DEAN of vocational-technical education is Robert Moldenhauer.
